To the FDA:

RE: Docket No. 98N-1265

I am sending this letter to register my concern and disapproval of the Memorandum of Understanding as published by the FDA on January 21, 1999.

I am on a limited budget and need the less expensive services provided by a compounding pharmacy in another state. The natural hormones they provide are accepted by my system, whereas the manufacturer ones were not. I know this is true for many women my age and economic situation. Please do not take this service or limit this service for us.

It is my understanding that in its present form, the MOU, as well as the Compounding Section 503A, severely restricts the rights of the physicians and patients to obtain health care products from the provider of their choice. It also infringes on the rights
